

NILFISK SW3000

A new formula for ease of use

Create clean and safe spaces

Easy to use and simple to maintain, no matter your skill level – with the SW3000, a mid-size, ride-on sweeper.

The SW3000 provides an optimal cleaning performance for various applications with optimal dust and debris collection. It's ideally designed for efficient cleaning in educational institutions, retail environments, and light industries such as production areas and warehouses.

Lithium-ion batteries enable opportunity charging, faster charging and offers longer lifetime

An improved dual hopper design with 2 x 50L dust hoppers provides an easier and more ergonomic waste dump

Built sustainability with PCR

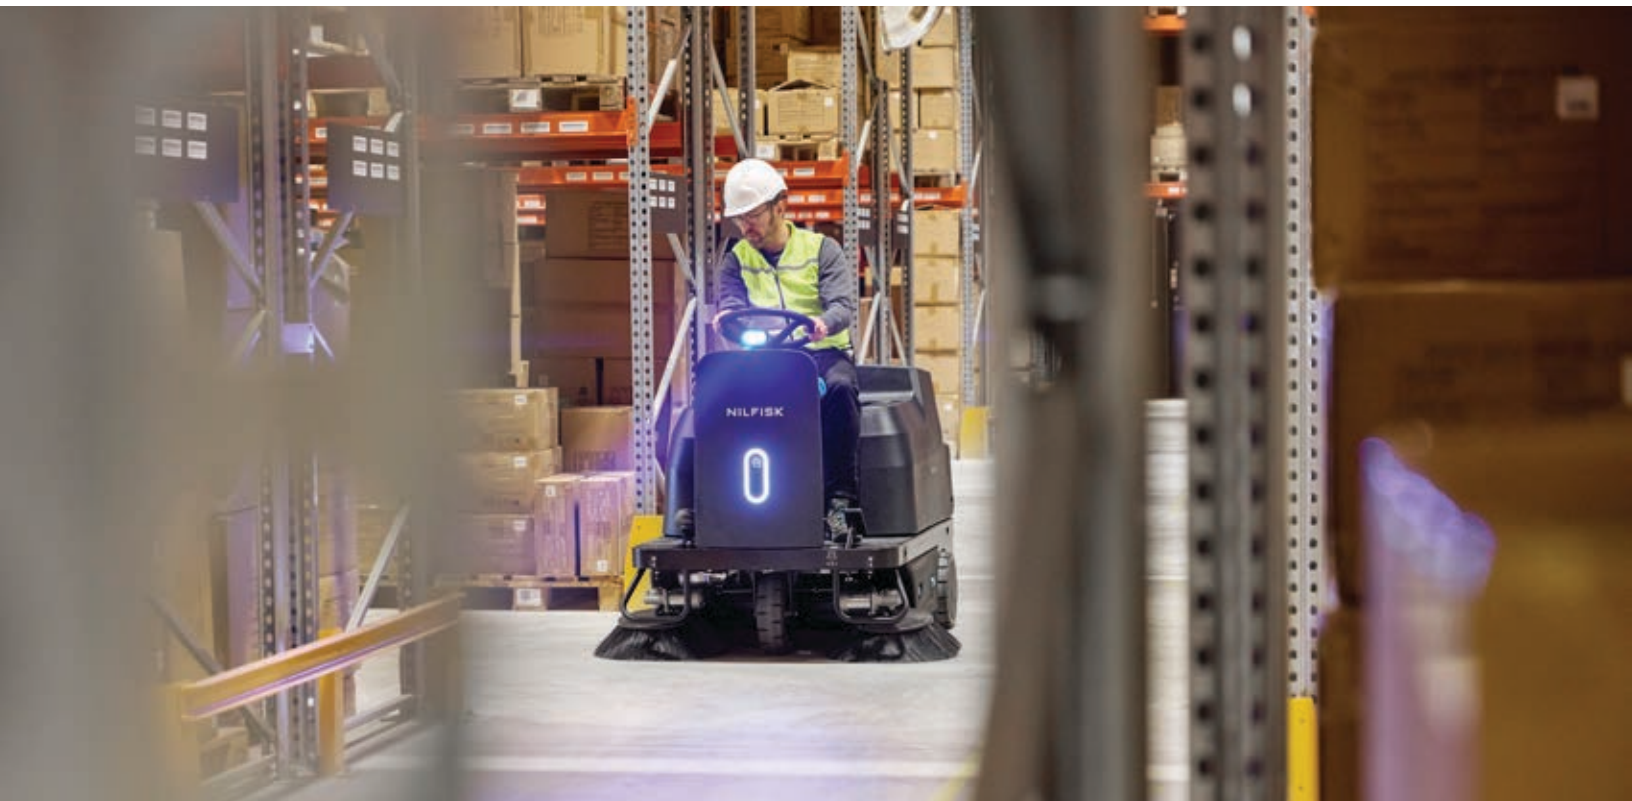

PCR, post-consumer plastic offers a more responsible type of recycled plastic. Reducing the overall plastic waste has a higher environmental impact. [The new Nilfisk SW3000 is made of 25% PCR plastic.](#)

No key is required – simply enter your personal PIN code to ensure unauthorized users are excluded from operating the machine

A simple informative user interface and new colored touchpoints makes it easy to use and maintain with minimal training

*Percentage of PCR material relative to total plastic weight per machine

Easy just got easier

No keys, no hassle. Just press the main button, enter your personal PIN code, and you're off to a smooth start. It never gets more complicated than that. In addition to the simple user interface, colored touchpoints for easy interaction, and

a quick waste dump, the machine stands out with tool-free operation. Plus, the new side door provides easy access to the main broom and dust filter for effortless maintenance.

We didn't go easy on ergonomics and comfort

Even ergonomics are a breeze. The SW3000 offers optimal comfort with an adjustable, reclining seat that reduces the risk of strain, along with a better pedal position design that accommodates the user's height and leg length, helping to reduce discomfort – especially during long periods of use.

Additional features and benefits

- Tool-free maintenance and easy access reduce downtime and effort
- Easy self-service on-board diagnostics through the user interface (error codes show on the display for simple troubleshooting)
- QR codes on the display for easy access to service manuals
- No pin code needed with standard FOB key
- Main broom adjustment from the driving position optimizing performance
- Highly efficient DustGuard™ misting system controls dust and helps to further maintain a clean environment
- Dual side brooms with guards are standard
- Manual or automatic filter shaker to ensure optimal filtration. Optional HEPA H13 filter for dust sensitive areas
- Warning beacon that makes operation in congested areas safe
- Optional features available for additional safety – overhead guard, blue safety light, which creates a blue spot in the floor

Technical specifications

Description	Units	SW3000
Battery Voltage		24V Lithium Ion
Working width (without side brooms)	inches (mm)	27.6 (700)
Working width (with side brooms)	inches (mm)	53.1 (1,350)
Hopper capacity	ft³ (L)	3.5 (100)
DustGuard™ Capacity	Gallons (L)	4.75 (18)
Maximum forward speed	mph (kph)	5 (8)
Minimum aisle turning	inches (mm)	100 (2,550)
Productivity theoretical	ft²/hr (m²/hr)	87,187 (8,100)
Sound level	dB(A)	72±3
Gross vehicle weight (GVM)	lbs (Kg)	895 (406)
Length x width x height	inches (mm)	63.8 x 41.5 x 49.6 (1620 x 1055 x 1260)
Height with overhead guard	inches (mm)	78.2 (1986)
Gradeability	% (°)	16 (9)
