JCB BOOM RANGE

AJ48D HIGHLIGHTS

- A color base display provides key machine performance information.
- Intuitive controls give fatigue-free operator use.
- A USB port allows operators to charge mobile phones and other devices.
- An auxiliary handrail provides the operator with enhanced protection against crush injuries.
- 5-year structural warranty.
- Rough terrain solid tires are fitted as standard.
- Single-side service points and a swing out engine tray.
- Standard JCB LiveLink telematics.

T65D HIGHLIGHTS

- 74hp JCB ECOMAX 444 engine.
- 3 person platform capacity.
- 65 foot platform height.
- 1,000 lbs platform capacity.
- Solid cast counterweight.
- Carefully routed waterproof wiring.
- 5” color platform display & 7” touchscreen base display.
- Standard LiveLink telematics.

The AJ48D articulated boom model boasts a 48ft platform height and increased working envelope, so no area is out of reach. The new T65D boom lift is our very first diesel telescopic boom lift. A new contender in 65ft platforms, this telescopic boom is powered by 75hp engine and boasts a 660 lb basket capacity.
